- Trading of emergency lighting system.

# Brief Portfolio

Red Blue Flame has professionally trained and qualified team of engineers and technicians who would perform to the highest standard of quality to satisfy the client/ consultant requirements which would meet with their approval. Our sales team will make a strong follow up of the after sales services as well.

Red Blue Flame has full capacity to execute all the installation jobs for all type of fire alarm and firefighting systems. All the projects are executed with well experienced engineers and highly technical people. We have special Team to carry out all the jobs for maintenance.

Red Blue Flame commenced its operations in year 2014 for Fire Protection systems supply, Installation and services. Since then, our core competence has been to identify, assess, and advise on how to manage risk. Whether we inspect a plant, equipment, material or certify a company's management system, or advice on how to do proper welding or preventing corrosion or detecting flaws, our focus is to safely and responsibly improve business performance.

We aim to be the most competitive and the most productive service organization in the world. Our core competencies in inspection, verification, testing and certification are being continuously improved to be best-in-class. They are at the heart of what we are. Our chosen markets will be solely determined by our ability to be the most competitive and to consistently deliver unequalled service to our customers all over the world.

# FIRE & LIFE SAFETY PRODUCTS

## Inspection & Annual Maintenance Contract of your Fire-Fighting Systems

We could be of help by serving you with an Annual Maintenance Contract (AMC) or Inspection to identify that your system works fine in case of any emergency. You could avail our services **24/7 for an AMC with the assurance of quick response and responsibility.**

As a part of the AMC, we take over your existing system and closely monitor all crucial elements including Fire fighting, Fire alarm, Emergency Lighting, Voice Evacuation and Gas suppression system. As part of the AMC, we also help our clients with the necessary documents, clearances and periodic certifications that are required to install and maintain their fire fighting systems.

RED BLUE FLAME of a group of trained individuals, who make sure that all your life-saving products are working optimally. They do this through regular checks and update all your devices. A quarterly report is sent to you so that you know the status of your system. All in all, RED BLUE FLAME make sure that your equipment is ready to perform when you need it the most.

### Why only authorized AMC

At RED BLUE FLAME, we are producing Fire protection devices with passion and precision. We are the best equipped to maintain them. This is why the law dictates that all must be serviced and maintained only by authorized personnel.

### RED BLUE FLAME AMC Package

Red Blue flame technical team is a group of skilled, trained engineers & technicians who under-take a Quarterly Service Schedule for AMC customers to ensure that every equipment in the client's premises is always working optimally.

All inspection and AMC are taken and delivered in accordance with national & International standard (NPFA & UAE Civil defense).
